## Poker Chip Valentine Necklace

### Materials:

12 Poker Chips  
Valentine Themed Paper of your Choice

[Heart Pendant](#)

[Marquis Chain](#)

[Jump Rings Assortment](#)

[5/32" Eyelets](#)

[Magnetic Clasp](#)

[Metal Foil Tape](#)

[Mod Podge](#)

[Diamond Glaze](#)

Safety Glasses

Ruler

[Drill](#)

11/16" Drill Bit

Hammer

[Jewelry Making Tools](#)

[Memory Wire Shears](#)

### Instructions:

**Step 1:** Take a ruler and mark two spots opposite each other on the outer edge of a poker chip. Put on your safety glasses and with an 11/16" drill bit, drill two holes where you marked your poker chip. Use this poker chip as a template. Place it on top of another poker chip and mark through the hole onto the bottom poker chip. Remove the top poker chip and drill holes where you marked on the bottom poker chip. Continue this process until you have completed 12 poker chips.

**Step 2:** Place your valentine themed paper face down. Glue your poker chips to the paper using Mod Podge. Let dry.

**Step 3:** Once dry, cut the excess paper from around each poker chip.

**Step 4:** Attach 5/32" eyelets through each poker chip into your pre-drilled holes. Make sure the rough side of the eyelet is down.

**Step 5:** Take two of your poker chips and place them back to back. While holding them together, wrap both together with metal foil tape.

**Step 6:** Diamond Glaze one side of the valentine poker piece. Let that dry over night. The next day, flip it over and diamond glaze the other side. Now these poker pieces are ready to be used in jewelry.

**Step 7:** With your safety glasses on, using your memory wire shears, cut out the smallest circles on the Marquis chain to free four oval links and one large round link.

**Step 8:** Attach three poker pieces to oval links using jump rings, making a poker chip oval link chain. Repeat.

**Step 9:** Take the round link freed in step 7 and attach both poker chip oval link chains to it using a jump ring. Also attach a heart pendant to it using a jump ring.

**Step 9:** Attach two lengths of maquis chain, left over from step 7 to to the other end of the poker chip oval link chain, using jump rings. Also, attach a magnetic clasp, using smaller jump rings and you are done.
